Directions

- Display the ingredients and review the importance of correct parliamentary procedure for chapter meetings.
- Explain that by making a "parli trail mix" members will practice useful motion and amendment skills.
- The chair will recognize members who will then make motions (Example: "I move to add pretzels to the bowl").
- Another member will second the motion or the chair may ask for a second if one is not provided.
- The motion (ingredient) will then be discussed and voted on.
- Continue until all ingredients that members wish to add are included.
- Once the trail mix is completed, the members can eat it for a snack.
